CENTER FOR AMERICAN STUDIES

Divulging the ideas of liberty, the rule of law, social openness, and community activism.

Center For American Studies is a fully independent non-governmental organization located in Poland. We strive to create a civic society among Polish citizens by divulging ideas of liberty, the rule of law, social openness, community activism, and government transparency.

Among our members there are people from all walks of life: young professionals, aspiring academics, opinion leaders, public intellectuals, community activists, and more. We do not only advance broadly understood American studies as an academic discipline, but also inspire others to implement what's best in the American way of life in their every-day living: approachability, resourcefulness, and individualism combined with commitment towards the local and national community.

PROJECTS

II INTERNATIONAL CONFERENCE „IN SEARCH OF THE EUROPEAN DOCTRINE OF FREEDOM OF SPEECH"

The conference encouraged and aimed to present political, philosophical, and legal thought related to the determination of the limits of freedom of expression in relation to the American, European, and Polish legal systems, as well as reflections on the essence, meaning, and responsibility for the words in the modern world.

NATIONAL CONFERENCE „THE UNITED STATES CONSTITUTION. THEORY AND PRACTICE"

The interdisciplinary character of the event enabled the popularization of American history and law as well as American political and legal thought in the academic circles. In addition, we analyzed various interpretative doctrines of the U.S. Constitution

II INTERNATIONAL CONFERENCE „THE AMERICAN LEGAL, POLITICAL AND ECONOMIC THOUGHT: THEORETICAL REFLECTIONS AND CONTEMPORARY CHALLENGES"

During the conference, the speakers presented innovative and critical approaches to the views presented up to now and proposals for solving problems still questioned in American social, political, economic, and legal thought.

NATIONAL CONFERENCE „REFUGEES, AND ETHNIC AND NATIONAL MINORITIES. LEGAL, POLITICAL, AND SOCIAL ASPECTS"

The growing immigration crisis, together with the burgeoning humanitarian disaster in the Middle East, prompted the organization of a conference devoted to this subject.
